ESSER
MASTERCLASS

One day online course

21 January 2021

Programma

The Osteo Arthritis course is een tweedaagse cursus voor chirurgen. Dag 1 op donderdag 21 januari kan via live steaming ook worden gevolgd door therapeuten.

<https://essermasterclass.com/esser-europe/osteo-arthritis/#program>

Doel

De kennis rondom de behandeling van degeneratieve en traumatische artrose van de gewrichten van de hand en pols te vergroten en daarnaast de juiste behandeling te kunnen kiezen.

Course Introduction

The treatment of osteo-arthritis of the hand and wrist can be demanding for a therapists and a hand surgeon. A vast majority of options is available, but selecting the best treatment for your patient can be difficult. Therefore we designed a two-day course with theoretical and practical sessions with biomechanics, pathology, hand therapy and surgical procedures that are available for hand and wrist osteoarthritis.

The practical sessions will be performed on fresh frozen cadavers with two participants per extremity. The online module will allow to watch these sessions through live streaming.

The Experts

The Esser Masterclass instructors and faculty are dedicated and certified hand surgeons. This means that the Esser Masterclass is focused on providing a tailored made and hands on international education by experts in the field across the globe. The Esser Masterclass is endorsed by the International Federation of Societies for Surgery of the Hand (IFSSH) and the International Confederation of Plastic Surgery Societies (ICOPLAST)
